EDUCATION

National Yang Ming Chiao Tung University (NYCU)

Master of Information Management

Hsinchu, Taiwan

Sep. 2025 – Current

National Yang Ming Chiao Tung University (NYCU)

Bachelor of Information Management and Finance

Hsinchu, Taiwan

Sep. 2021 – June 2025

PROFESSIONAL EXPERIENCE

WNC Corporation

Software Engineer Intern

Hsinchu, Taiwan

Jul. 2026 – Current

- Built **Release Platform** integrating GitLab and Jira via APIs, replacing manual cross-tool operations with automated CI/CD workflows.
- Reduced team manual effort by 75%, shipped 6+ features, and fixed 10+ production issues.

Zyxel

Software Development and Testing Intern

Hsinchu, Taiwan

Jul. 2024 – Jan. 2025

- Managed and optimized internal system by routine upgrades and troubleshooting
- Built scalable internal tools to optimize developer productivity and accelerate software lifecycles.

PUBLICATIONS & PROJECTS

Degrading Trustworthiness in CDR via Popularity Bias Poisoning | *IEEE BigDataService*

2026

- Proposed a popularity bias poisoning attack against CDRS that degrades unpopular item while maintaining global performance.
- Achieved a **100%** increase in recommendation bias using only public user-item interactions, exposing vulnerabilities in CDR models.

GPU Parallelization of Threshold Secret Sharing with Latin Cubes | *CUDA, Cryptography*

2025 - 2026

- Parallelized threshold secret sharing on GPU using CUDA and Latin cubes; achieved **40x** faster vs. CPU sequential and **5x** faster vs. parallelized Shamir.
- Designed 5 CUDA kernels (OLC generation, encode/decode, fast-decoding) and optimized device memory layout for Galois field arithmetic.

SAML SSO Site | *Vue.js, Django, SAML*

July 2024 – Jan. 2025

- Engineered a custom SAML SP template to streamline enterprise SSO integrations.
- Implemented required APIs by Python's **Django** and **FastAPI** and frontend with **Vue.js**.

COMPETITION

Multispeaker Transcription | *Meichu Hackathon Google Group 3rd Place*

Oct. 2023

A tool to empower hearing-impaired users to navigate fast-paced meetings without cognitive overload.

- **Identify User:** Leveraged RL models to differentiate between distinct speaking users.
- **Translation:** Integrated multi-language support for English to Chinese translation.

TECHNICAL SKILLS & CERTIFICATIONS

Programing Languages: C/C++, CUDA, Python, TypeScript, JavaScript, HTML/CSS

Frameworks: Django, FastAPI, Flask, Vue.js, Vite

Tools: Git, GitLab CI/CD, Jira, Linux

Languages: Intermediate English (TOEIC 750), Beginner Spanish, Beginner Japanese
